Annual Ethanol & Biofuels Conference by Curtis & Wyss

The annual Ethanol & Biofuels Conference is scheduled on February 26-27, 2018 in Prague, Czech Republic.

The summit is designed for senior level attendees from world leading innovation, investors, biofuels industries and related businesses. This is an opportunity for leads to discuss progress and share insight on strategies. Our Summit will also offer a unique opportunity for each one to understand the challenges at stake and to forge one's conviction on the path to build sustainable growth of the industry. This premier B2B event will bring together experts from all levels of the value chain to ensure maximum knowledge transfer and professional exchange; elaborate on the best practices within the biofuels industry, and academia to discuss, hear and learn about their experiences on economy analysis, policies & regulations, to network and enjoy excellent mix of case studies, interactive panel discussions, speed networking and workshops.
